REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: A clamp having a main body; a rotary drive; a pump mechanism; a cylinder mechanism; a retaining mechanism; and a toggle link in combination with the other claimed limitations.

a. The prior art references Pat. No 4529362 and 6471199 do not disclosed the claimed invention and there is no teaching nor motivation to combine the two in a 103 rejection because there is no teaching to put a rotary drive section actuated on a signal with a pump and cylinder mechanism with a retaining means which is not even mentioned by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LEE D WILSON whose telephone number is 703-305-4094. The examiner can normally be reached on M-F.
